With the capacity and versatility to tackle large areas, the Hero Edge is the ultimate chemical free stripping machine.

- Powerful motors
- 122l tank capacity
- 113kg pad pressure
- 710mm cleaning width

RIDE-ON

GTX

Strip, sand, scrub, clean, and polish huge areas quickly and easily with this revolutionary ride-on chemical free machine.

- Suitable for all hard surfaces
- 132l tank capacity
- 113kg pad pressure
- 710mm cleaning width

THE EDGE CONCEPT

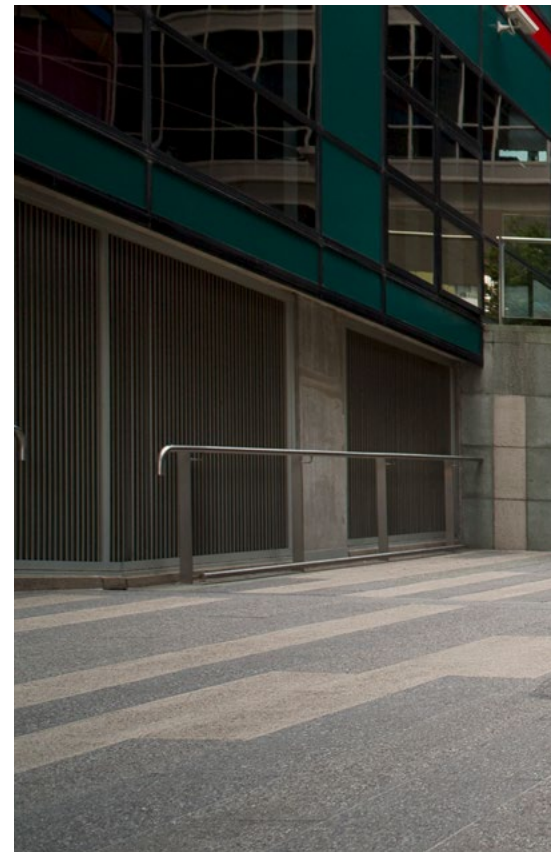

Conquest Edge floor scrubbing machines are built tough.

Machines in this series use a unique combination of speed, pressure and pad configuration, to efficiently sand timber floors, remove floor finish, prepare marble, polish concrete and clean hard floors without the need for chemicals. The diverse range of accessories available allow for machine customisation, to suit almost any floor type and application.

Each machine is completely hand built. Wiring is manufactured to military specification and individual components are sourced from world-leading suppliers. This robustness ensures that Conquest Edge scrubbers will deliver outstanding results for years to come.

Testament to our confidence in the durability of this industrial scrubbing range, all Edge machines come with a **3 year warranty** on all non-wearing parts. So you can enjoy peace of mind.

A SMART INVESTMENT

Experience the power and efficiency of a Conquest sweeper, scrubber, or floor preparation machine. When you invest in a Conquest floor cleaning machine, you can trust you are receiving a high quality, durable, and affordable solution that will continue to deliver unbeatable results for years to come.

FINANCE YOUR MACHINE

With a range of tailored finance options available, the need to wait is over! Through established partnerships with equipment finance specialists, Conquest offer competitive rates for financing equipment including hire purchase, chattel mortgage, and maintenance packages. We can customise finance solutions to suit your individual business needs. So let us help you determine the right finance solution for your new Conquest machine.

LONG TERM RENTAL OPTIONS

Need a new floor cleaning machine, but don't have the disposable capital upfront? Conquest's long term rental options are the perfect solution! Convenient and cost-effective, hire periods can extend from 12 months to 5 years. During this term, you can enjoy peace of mind knowing that machines are fully maintained and serviced. Just one monthly payment covers you for servicing, repairs and a fixed annual allocation of consumables. It's that simple!

SERVICE & MAINTENANCE

To keep your Conquest machine in peak operational condition, we offer after sales support, spare parts and onsite servicing throughout the life of your investment. Our service and maintenance options include a choice of fully maintained or preventative maintenance packages, and can even be customised to suit your specific requirements. With excellent response times, our national service and support network continually aim to minimise downtime and exceed your expectations!

CONSUMABLES AND SPARE PARTS

To keep your floor cleaning equipment in prime condition, Conquest stock a large inventory of spare parts and consumables. We promise same day dispatch for all orders placed before 2pm, in an effort to help you minimise downtime and get you back on the job faster.

AUSTRALIA WIDE SERVICE & SUPPORT NETWORK

With strategically located facilities in Melbourne, Sydney and Brisbane, supported by a nationwide distribution network, Conquest is positioned to deliver clean floor solutions nationwide. For sales, support and ongoing service, we have you covered.
