

INDUSTRIAL FLOOR CLEANING MACHINE CATALOGUE

Discover a comprehensive range of quality floor sweepers, scrubbers and surface preparation machines.

THE CLEVER WAY TO CLEAN

Conquest Equipment delivers the latest innovations in hard floor cleaning equipment, offering one of the largest ranges of sweepers, scrubbers and floor preparation machines in Australia and New Zealand. Driven by an understanding that all spaces are unique, we draw from a versatile range of high quality equipment to craft solutions tailored to your requirements.

Our sturdy and reliable floor cleaning machines are backed by a national service and support network, with reach extending to all corners of Australia and New Zealand. Conquest mobile technicians are strategically located around the country, enabling on-site preventative maintenance and repairs to optimise machine performance and prolong the life of your investment.

Plus, with a large inventory of locally stocked parts and consumables, downtime is minimised to get you back on the job faster.

Our friendly Customer Care team are here for you throughout your Conquest journey – from creating the perfect cleaning solution, throughout the lifetime of your floor cleaning machine.

So, if you're seeking a customised and fully supported solution to your hard floor cleaning challenge...

Be clever. Clean with Conquest.

POWER SWEEPERS

WALK BEHIND

TORNADO

Sweep up to five times faster than a broom with this reliable and efficient sweeper.

- Sweeping width up to 920mm
- 40L waste hopper capacity
- Robust and corrosion resistant molded machine body
- Simple operation with minimal moving parts

PB55

This medium sized self-propelled sweeper features a robust construction and unrivalled sweeping ability.

- Sweeping width with one side broom 680mm
- 36L waste hopper capacity
- Direct throw sweeping system for long term performance
- Traction drive to increase productivity and reduce operator fatigue

PB70

A premium sweeper that's designed to tackle medium to large areas and congested spaces.

- Sweeping width with one side broom 880mm
- 50L waste hopper capacity
- Electric filter cleaner increases dust filtration performance
- Robust powder coated steel construction reducing maintenance costs

RIDE-ON

FSR

Experience the benefit of ergonomic design, with maximum visibility, light steering and full finger-tip control plus the unique ability to sweep carpeted surfaces.

- Sweeping width up to 1000mm
- 65L waste hopper capacity
- Clever design provides excellent maneuverability and operator line of sight
- Overthrow sweep system provides efficient collection of large debris

POWER SWEEPERS

RIDE-ON

PB110

Featuring the latest design and technology, the PB110 offers extended sweeping in all conditions.

- Sweeping width up to 1100mm
- 65L waste hopper capacity
- Simple heavy-duty design for use in congested industrial applications
- Direct throw sweeping system ideal for heavy dust environments

HYDRAULIC RIDE-ON

PB115

Available in LPG or Battery, this unit is ultra compact and extremely heavy duty while incorporating all the features of the larger machines.

- Sweeping width up to 1350mm
- 180L waste hopper capacity
- Full hydraulic operation reduces moving parts and potential maintenance concerns
- Tough polyester bag filter lasts at least 5x longer than cardboard panel filter

PB120

The superior engineering of the PB120 saves you time and effort in heavy duty applications. Available in LPG or Battery.

- Sweeping width up to 1500mm
- 250L waste hopper capacity
- High output power source allows for extensive and uninterrupted cleaning periods
- Clever design and power steering maximises cleaning efficiencies

PB160

With superior strength and advanced features, this machine is designed for heavy duty industrial use. Available in Battery, LPG and Diesel.

- Sweeping width up to 1600mm
- 300L waste hopper capacity
- Green Teflon coated polyester filter provides water resistance and longevity
- Unique dual bristle broom design increases brush life by 30%

HYDRAULIC RIDE-ON

PB180

Expect unbeatable performance and reliability from this industry leading machine. Available in Diesel and LPG with 3- or 4-wheel configuration.

- Sweeping width up to 1800mm
- 500L waste hopper capacity
- Clever water-cooled Kubota engine system reduces maintenance and increases reliability
- Direct throw sweeping system provides ultimate long-term sweeping efficiencies

PB200

With Conquest's unique 4 wheel design this machine delivers a safer more comfortable and more reliable ride.

- Sweeping width up to 2000mm
- 600L waste hopper capacity
- The four-wheel configuration reduces wear and tear in heavy industrial applications
- Huge capacity allows this unit to sweep extreme areas with ease

COMBINATION MACHINE

SWEEPER/SCRUBBER

CC1200 LPG

Expect unbeatable performance and reliability from this industry leading machine.

- Cleaning width consists of 1650mm scrub path and 1750mm sweeping path
- 300L solution/recovery tank capacity
- 180L waste hopper allowing longer cleaning periods
- Combination sweeping, vacuum and scrubbing in a single pass increasing productivity

OUTDOOR SOLUTIONS

STREET

ECOVAC 240

The clever way to collect waste, the EcoVac 240 is a 100% battery powered vacuum cleaning machine that is safe, simple to use and whisper quiet.

- 125mm diameter waste collection tube
- 240L wheelie bin waste hopper capacity
- Automatic self-cleaning filters for continuous protection from hazardous airborne dust
- Safe and environmentally friendly with zero CO2 emissions

ECOSWEEP 360

The world's first battery powered suction sweeper is emission free, environmentally friendly and quiet at just 75dB.

- Sweeping width up to 1600mm
- 360L wheelie bin waste hopper capacity
- Up to 8 hours of continuous sweeping without recharging
- Direct drive AC motors on both rear wheels with 30% hill climbing ability

ECOSWEEP 2000

Advanced battery technologies and extraordinary performance make this sweeper ideal for cleaning your outdoor open spaces with minimal disturbance.

- Sweeping width up to 1900mm
- 2.0m3 high dump waste hopper capacity
- Up to 10 hours of continuous sweeping
- Quiet operation at a low 63dB level

POWER SCRUBBERS

WALK BEHIND

GENIE B

Designed to replace the traditional mop and bucket, this machine leaves floors cleaner and drier for improved hygiene and safety.

- Cleaning width up to 350mm
- 10L solution/recovery tank capacity
- 180° folding handle allows cleaning in tightest spaces and easy transport
- Parabolic squeegee which swings around the brush ensuring perfectly dry floors

MY 530B

By applying maximum pressure, the MY 530B effectively cleans even the most stubborn dirt and stains.

- Cleaning width up to 510mm
- 33/40L solution/recovery tank capacity
- Simple design may be operated in tight areas while achieving maximum efficiencies
- V-shaped squeegee draws water to the vacuum providing the ultimate dry floor

MAXIMA 50BT

Sleek, smart and strong, this floor scrubbing machine features innovative design, advanced technology and powerful scrubbing action.

- Cleaning width up to 510mm
- 60/65L solution/recovery tank capacity
- Brush Quick Release allows operator to remove brush at the flick of a switch
- Variable speed traction drive provides effortlessly consistent results

MXL 75BT

Featuring simple operation, the MXL delivers the ultimate clean on hard floor surfaces with optimal results and maximum productivity.

- Cleaning width up to 765mm
- 74/85L solution/recovery tank capacity
- Quiet operation FNC system at an industry low 58Db minimising the impact of noise disruption
- Adjustable brush pressure provides the ability to adjust scrubbing pressure to suit application

POWER SCRUBBERS

RIDE-ON

MR 85B

This scrubber features a unique compact design for increased manoeuvrability and optimum performance.

- Cleaning width up to 850mm
- 110/125L solution/recovery tank capacity
- Unique, compact ride-on design is extremely maneuverable providing highly efficient work rate
- Quiet operation FNC system at an industry low 58Db minimising the impact of noise disruption

MMG

The MMG offers a new level of operator comfort, featuring simple to use controls this ride-on floor scrubber is everything you have been looking for.

- Cleaning width up to 750mm
- 110L solution/recovery tank capacity
- Operator friendly design with low floor entry and accessible from both sides
- Clever fixed squeegee design with squeegee protected by the body of the machine

MMG PLUS

One of the world's most advanced scrubbers with features including rear view camera, collision protection and under-body lights.

- Cleaning width up to 750mm
- 110L solution/recovery tank capacity
- Intuitive, full colour touch screen allows operators to manage controls with the touch of a finger
- Zone program settings ensure cleaning efficiencies per zone with password lockout for optimal control

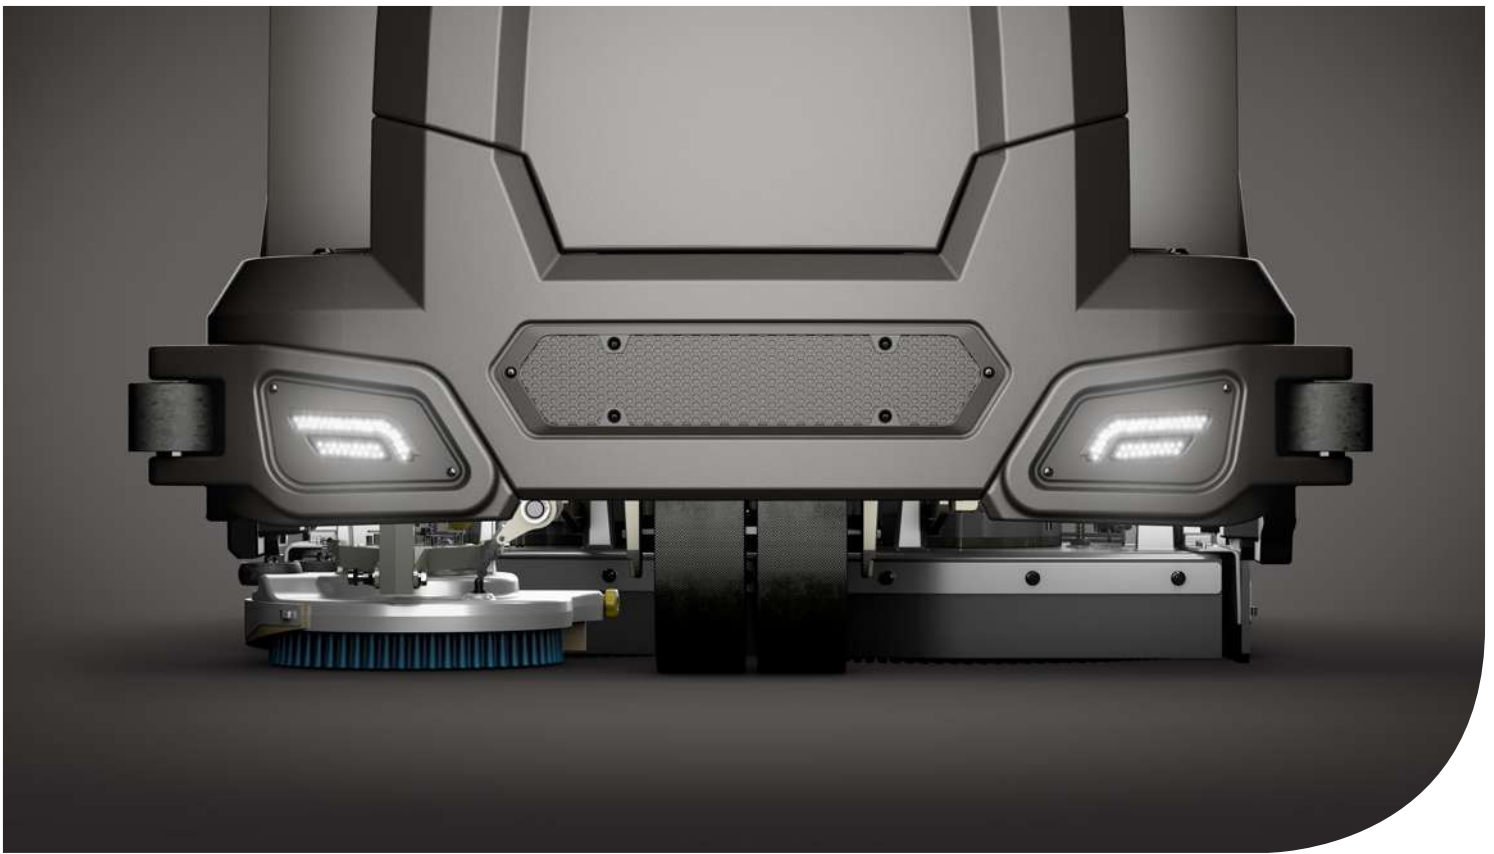

MAGNA

A large capacity scrubbing machine delivering powerful scrubbing results on even the most demanding applications. Packed with features and operator comforts, the Magna is a class leader.

- Cleaning width up to 900mm
- 190/200L solution/recovery tank capacity
- Automatic park brake engaged when the accelerator is released, even on inclines
- Operator friendly design with low floor entry and accessible from both sides

RIDE-ON

MAGNA PLUS

An innovative scrubbing machine packed with technological features to maximise productivity and safety, while minimising water usage and chemical waste.

- Cleaning width up to 900mm
- 190/200L solution/recovery tank capacity
- Full colour display with function control and onboard videos tutorials at the touch of a finger
- Collision protection system sounds audible warning when reversing too close to an object

CONQUEST ROBOTICS

ROBOTS

SCRUB 50

Leading the way in innovation the Scrub 50 robotic cleaning machine safely operates autonomously in public spaces with advance incident avoidance systems.

- Cleaning width up to 500mm
- 18/25L solution/recovery tank capacity
- LIDAR, depth camera and advanced sensors for safe operation in busy areas
- Self-deployment to cleaning zones for up to 3 hours autonomous scrubbing

SCRUB 75

With class leading performance the Scrub 75 boasts superior safety systems and incredible cleaning efficiencies making this robotic cleaning machine the front-runner in its field.

- Cleaning width up to 750mm
- 75/50L solution/recovery tank capacity
- LIDAR, depth camera and advanced sensors for safe operation in busy areas
- Manual or autonomous operation

TOMCAT SCRUBBERS

WALK BEHIND

RECON

With many features of the larger machines, this scrubber is ideal for congested areas that need regular scrubbing.

- Cleaning width up to 510mm
- 38L solution/recovery tank capacity
- Stainless steel fasteners are resistant to corrosion, reduce potential maintenance costs
- Tilt back tank providing instant access to all drive and working components

CARBON TC

Cylindrical brushes allow this powerful machine to clean uneven surfaces and grout with ease.

- Cleaning width up to 735mm
- 80/87L solution/recovery tank capacity
- Ideal for harsh environments with heavy duty steel construction and corrosive resistant body
- Two cylindrical brushes provide light sweep as well as scrub

CARBON TD

The Carbon TD is a strong and reliable heavy duty scrubber that's user friendly and easy to maintain.

- Cleaning width up to 710mm
- 80/87L solution/recovery tank capacity
- Manager lock outs to avoid changes to solution flows and brush pressure by unauthorised staff
- Steel jaws and non-marking urethane rollers avoids damage to the machine and property

HERO TD

Featuring disc brushes ideal for flat surfaces, this powerful walk behind scrubber is extremely robust and easy to use.

- Cleaning width up to 865mm
- 122/125L solution/recovery tank capacity
- Maximum brush pressure applied by dual brushes/pads for tough cleaning applications
- Manager lock outs to avoid changes to solution flows and brush pressure by unauthorised staff

RIDE-ON

CRZ TC

Expect nothing less than quality, efficiency, and productivity from this heavy-duty industrial scrubber.

- Cleaning width up to 864mm
- 133L solution/recovery tank capacity
- Cylindrical brushes provide the ability to lightly sweep while scrubbing floors
- Patented vacuum motor protection shields the vacuum motor from water intake

CRZ TD

With a unique combination of features, the CRZ TD is designed to increase productivity and effortlessly clean large areas.

- Cleaning width up to 864mm
- 133L solution/recovery tank capacity
- Tilt back tanks provide access to all the serviceable parts
- Heavy duty steel chassis designed for demanding applications

XR TC

Among the toughest machines on the market, the XR can easily tackle large and difficult floors for an unbeatable clean.

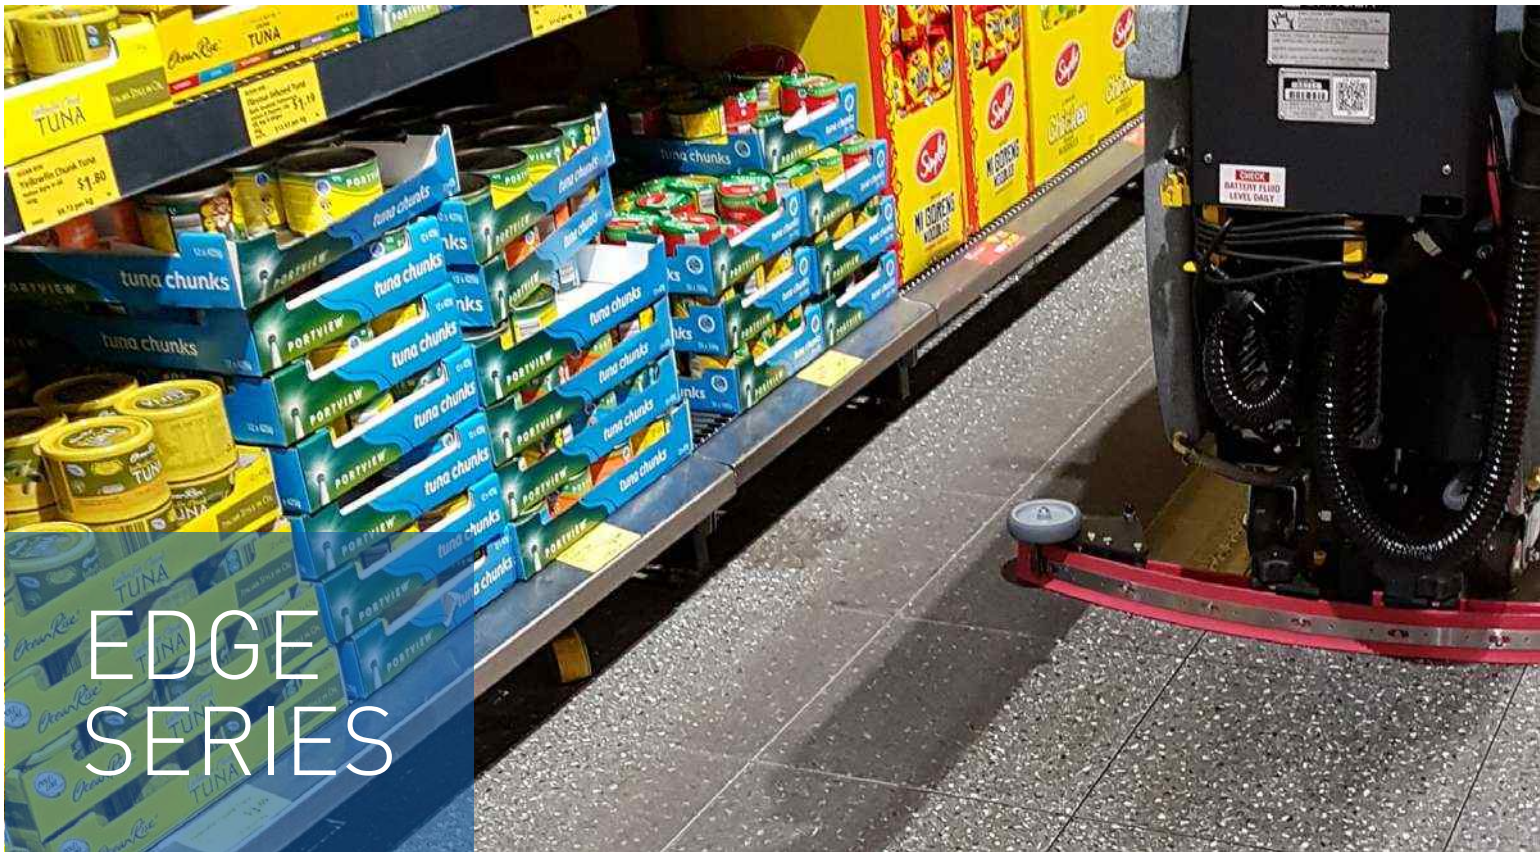

- Cleaning width up to 1125mm
- 257L solution/recovery tank capacity
- 36V battery system providing 50% more power than comparable machines
- Two cylindrical brushes provide light sweep as well as scrub

XR TD

This unstoppable cleaning machine is a popular choice for operators looking for a large, powerful, and robust scrubber.

- Cleaning width up to 1125mm
- 257L solution/recovery tank capacity
- 10mm thick poly solution and recovery tanks, backed by a 10-year warranty
- Wash down spray wand for hard to reach areas and keeping the machine in optimum condition

EDGE SERIES

STICK MACHINES

NANO EDGE

The Nano is the smallest of the Edge Series; a compact unit ideal for deep scrubbing and stripping in tight areas.

- Cleaning width up to 250mm
- Powered by 9m heavy duty power cord
- Rectangular oscillating head reaches in corners and along edges
- Extremely durable with solid 6mm aluminum backing plate, maintains consistent results

ISO HD STICK

This dry floor stripping machine significantly reduces labour time and completely eliminates the need for chemicals.

- Cleaning width up to 500mm
- Rectangular oscillating head reaches in corners and along edges
- Extremely durable with solid 6mm aluminum backing plate
- Powered by 10 amp, 240V power supply for continuity of use

WALK BEHIND

MICROMINI EDGE

Compact scrubber dryer with Edge technology. A large 610mm pad is ideal for cleaning right up to the edges and into corners.

- Cleaning width up to 610mm
- 38L solution/recovery tank capacity
- The rectangular scrubbing head getting into corners and along edges possible
- Chemical-free cleaning, suitable for jobs that do not require chemical solutions

CARBON EDGE

Tough, strong and reliable, the Carbon Edge is a versatile, simple to operate and highly effective floor scrubbing or stripping machine.

- Cleaning width up to 710mm
- 80/87L solution/recovery tank capacity
- Robust, powder coated steel chassis supports tanks and all working components
- Strips finish from surfaces chemicals free; able to be used along edges and into corners

WALK BEHIND

HERO EDGE

With the capacity and versatility to tackle large areas, the Hero Edge is the ultimate chemical free stripping machine.

- Cleaning width up to 710mm
- 122/125L solution/recovery tank capacity
- Baffled recovery tank prevents foam and spray from entering the suction motor
- Tilt back tank providing instant access to all drive and working components

RIDE-ON

CRZ EDGE

Strip, sand, scrub, clean, and polish huge areas quickly and easily with this revolutionary ride-on chemical free machine.

- Suitable for all hard surfaces
- 132l tank capacity
- 113kg pad pressure
- 710mm cleaning width

THE EDGE CONCEPT

Conquest Edge floor scrubbing machines are built tough.

Machines in this series use a unique combination of speed, pressure and pad configuration, to efficiently sand timber floors, remove floor finish, prepare marble, polish concrete and clean hard floors without the need for chemicals. The diverse range of accessories available allow for machine customisation, to suit almost any floor type and application.

Each machine is completely hand built. Wiring is manufactured to military specification and individual components are sourced from world-leading suppliers. This robustness ensures that Conquest Edge scrubbers will deliver outstanding results for years to come.

CUSTOMER SUPPORT SOLUTIONS

CUSTOMER SUPPORT

SHORT TERM HIRE

- Modern fleet of Conquest floor cleaning machines available
- Fast and convenient floor cleaning machines ready at a moment's notice
- Simple delivery/collection options available
- Machine hire period starting from one day

FLEXIBLE RENTALS

- Straight forward approval process for fast and seamless transactions
- Eliminate the risk attached to purchasing outright capital equipment
- Fully maintained equipment optimising performance
- Fully flexible options and terms to allow change as your business evolves

SERVICE

- Australia and New Zealand wide Service and Support network
- Factory trained mobile technicians for onsite servicing and repairs
- Inclusive Service Contracts available for total peace of mind
- Experienced Technical Support on hand to guide you through minor mechanical challenges

SPARE PARTS

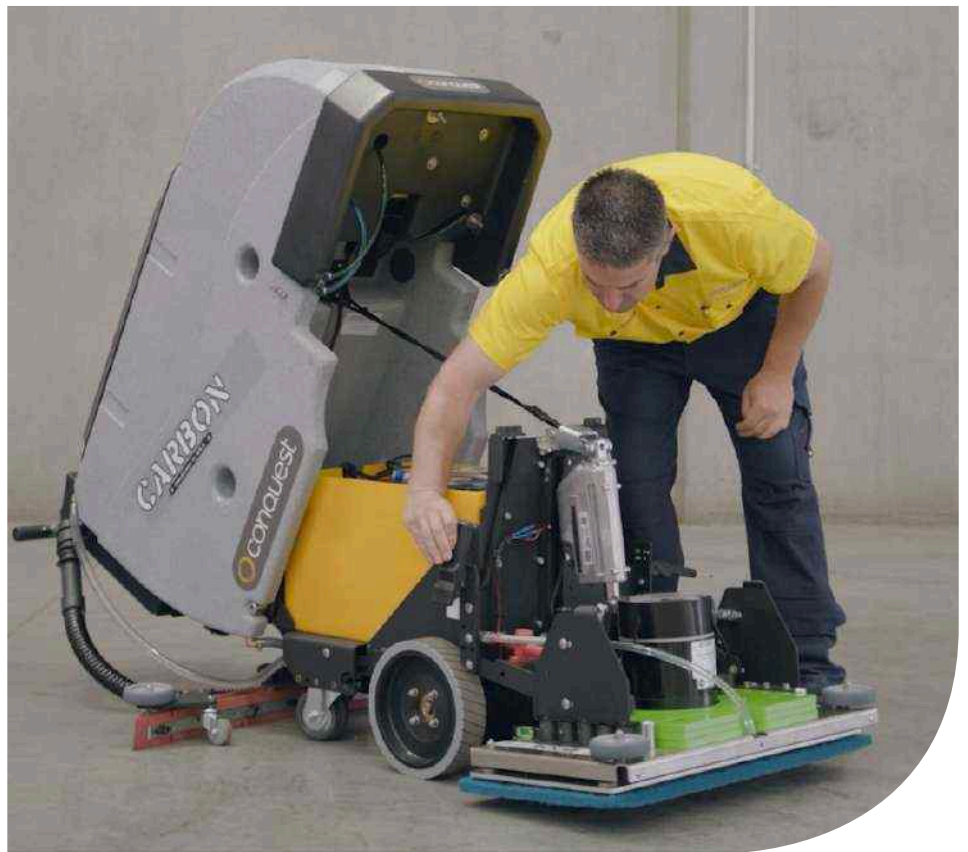

- Large inventory of spare parts and accessories
- Detailed parts breakdowns available to assist in identifying parts required
- Overnight shipping to minimize machine down time
- Same day dispatch on spare parts orders prior to 2pm

INTELLIGENT SOLUTIONS PROGRAM

Our 8-step process identifies and addresses your unique floor cleaning challenges with an expert recommendation that we'll stand behind 100%.

THE CONQUEST 360 PROMISE

INVEST WITH ABSOLUTE CONFIDENCE

At Conquest, we are confident. We believe that our expertise is unrivalled in the commercial floor cleaning industry. We know that our dedicated team will routinely go the extra mile for our customers. Plus, our unbeatable product range gives customers access to the latest technology and innovation in the industry with the highest quality, most reliable machines on the market.

100% CUSTOMER SATISFACTION GUARANTEE

We go to great lengths to ensure our customers will be completely satisfied with their Conquest commercial floor cleaning solution through our unique Intelligent Solutions Program (ISP).

60-DAY MONEY BACK GUARANTEE

We will upgrade or swap out our Conquest machine, or give our customer their money back if, within 60 days of purchase, they feel the machine is not performing to expectation.

4-YEAR PARTS AND LABOUR WARRANTY

As long as your Conquest machine is serviced by us per manufacturer recommendations, we are proud to offer an industry-leading, extended 4-year warranty on all machines.

NO RISK, FULLY FLEXIBLE RENTALS

Things change! Upgrade, downgrade, change to a different machine or return the machine if no longer required – at any point in the fixed term, without penalty.
