

# CONQUEST SD180

## SUPER DUTY INDUSTRIAL SWEEPER

### HIGH PERFORMANCE AT LARGE SCALE

Manufactured in the USA, this super-duty sweeper has been crafted from agricultural-grade, E-coated steel, ensuring exceptional durability. Faced with extreme conditions or demanding applications, the SD180 is built to withstand the challenges of industrial use.

Featuring an impressive 620L waste hopper, this sweeper maximises efficiency by allowing operators to cover large areas without frequent interruptions for emptying. Its advanced design not only prioritises performance but also guarantees long-lasting reliability, making it the ideal choice for those who require a dependable solution for their heavy-duty sweeping needs. Available in both Diesel and LPG fuel options.

# SD180

The SD180 Super Duty Industrial Sweeper is a powerhouse engineered to excel in the toughest environments.

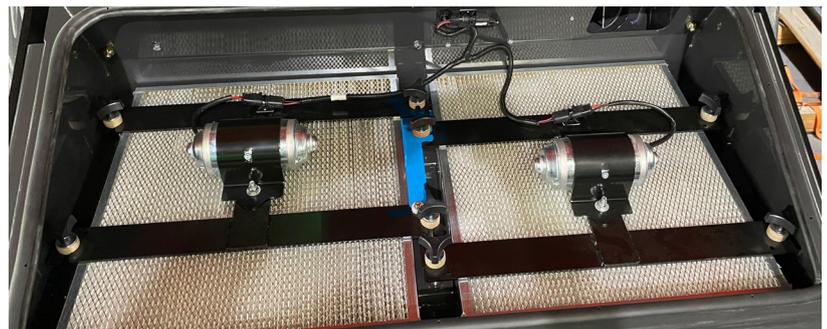

## Features & Benefits

- Maximize productivity with a sweeping path up to 2000mm wide, covering up to 17,168 sq. m per hour.
- Agricultural-grade e-coated steel promotes durability and longevity in the harshest operating conditions.
- Tool-free brush changes and swing-out engine access simplify maintenance, saving on time and servicing costs.
- Large waste hopper can be raised to a height of 1500mm, for ease of emptying over waste receptacles.
- A full view of the debris hopper allows operators to monitor and respond, optimising performance.
- Flashing lights and working headlights improve visibility and safety in low-light conditions.
- Simplified operation supports use by operators of all experience levels.
- Robust, heavy-duty design eliminates the need for any complex electronics, guaranteeing long life with minimized downtime.
- The Tilt Waste Relocation (TWR) system moves debris to the front of the hopper during operation, maximising.

## Technical Specifications

SD180D, LPG	
Sweeping Width	1625mm main broom + side broom
Theoretical Cleaning Capacity	17,168sqm
Power Supply	24.8 HP Kubota Diesel Engine 55 HP Kubota LPG Engine
Filtration Type	10.2m <sup>2</sup> Dual Dust Panel Filtration to 1 Micron
Waste Hopper Capacity	620L
Waste Hopper Empty Height	Variable to 1500mm
Operational Incline	Up to 16%
Machine Dimensions	2667 x 1626 x 1409mm
